ECI(2021)000009

Recipient:

European Commission
sg-eci@ec.europa.eu
info@ecas.org
cab-jourova-contact@ec.europa.eu

Dear EU Commission,

The ECI “*Stop 5G - Stay Connected but Protected*” launched the signature collection on March 1, 2022.

The conditions we have encountered in the population since the launch of our ECI cannot be considered "normal conditions" for collecting signatures, as we would like to briefly outline below.

In addition to our previous request, **we strongly request to be granted another 6 months extra time** to collect signatures for our ECI.

Kind regards
Pernille Schriver
Coordinator for “Stop 5G – Stay Connected but Protected”

1 Censorship on social media

Social media have been an important tool for our ECI, but unfortunately we have found ourselves blocked in many occasions. Here are some examples:

1 Blocked on Facebook

May 6, 2022 - Report from our member in **Finland**: *"I was just stopped on Facebook when I was going to make a post about Stop (((5G))). I used <https://signstop5g.eu/fi> as a link. Then I got a message that it is SPAM and that it is a URL link that is forbidden to use on Facebook. Further more it was misleading information. However, when I made a post with the link <https://signstop5g.eu/sv> then it went well. No messages about misleading information."*

2 Blocked on YouTube

YouTube <no-reply@youtube.com> Fri, Apr 8, 2:07 AM

Hi sign stop5g,

We have reviewed your content and found severe or repeated violations of our [Community Guidelines](#). Because of this, **we have removed your channel from YouTube**.

Appeal here. Make sure to fill out the appeal form as completely as possible, including your channel URL: <https://www.youtube.com/channel/UCj1sDgD1bXyhV5CZU7EzymQ>

If you have any further questions, please feel free to reach out to us here.

Sincerely,

The YouTube Team

After our appeal the channel was published again without any change. This means there was no real violation, only some proactive censorship.

3 Blocked on LinkedIn

August 1, 2022 - Report from our member in the **Netherlands**: *"Today LinkedIn deleted the page **Stop(((5G))) Stay connected but protected NL/BE**. I don't know exactly why. Maybe because of the post about the press release from Europeans for Safe Connections about the ICNIRP. Or maybe a post about the lobby of the Telecom. I asked LinkedIn to restore the page, we already had 126 followers."*

Your page violates our policies

This happened

We've found that your page doesn't follow our spam and scam [professional community policies](#). The item has been deleted and only you have access to it. [Check your page](#).

If you repeatedly create content that doesn't follow our [Professional Community Policies](#), your [LinkedIn account may be restricted](#).

Reassessment procedure

If you believe we've erroneously removed your page, you can ask us to review it. Follow the steps below:

Step 1 - View our policies

View our professional community policies on spam and scams.

[View our policies](#)

Step 2 - Check Your Deleted Page

Double-check that your Page complies with our Professional Community Policies.

[View your page](#)

I have read and agree to LinkedIn's Spam and Scams Policy.

I checked my page again

I would like LinkedIn's Trust and Safety department to re-evaluate my Page

[Request reassessment](#)

Jw pagina is in strijd met ons beleid

it is er gebeurd

Je hebben geconstateerd dat uw pagina niet voldoet aan onze [beleidslijnen voor de professionele community](#) inzake spam en scams. Het item is verwijderd en alleen u hebt toegang hiertoe. [Controleer uw pagina](#).

Als u herhaaldelijk content maakt die niet voldoet aan onze [beleidslijnen voor de professionele community](#), kan uw [LinkedIn-account worden beperkt](#).

procedure voor herbeoordeling

Als we volgens u uw pagina ten onrechte hebben verwijderd, kunt u ons vragen om er nog eens naar te kijken. Volg de onderstaande stappen:

ap 1 - Bekijk ons beleid

Bekijk ons beleid voor de professionele community over spam en scams.

[Ons beleid bekijken](#)

ap 2 - Controleer uw verwijderde pagina

Controleer nogmaals of uw pagina voldoet aan onze beleidslijnen voor de professionele community.

4 German newspaper (added after submission to EC)

January 16, 2023 - Report from our member in **Germany**: "*We were offered an advertisement in [www.schrotundkorn.de](#) Later the offer was taken back because there was not a "go" for our campaign.*"

Politische Anzeigen und Kampagnen muss ich vor Erscheinen intern prüfen lassen. Leider habe ich für Ihre Kampagne kein „Go“ erhalten. Somit kann ich mein Angebot leider nicht aufrechterhalten – es tut mir leid.

Viele Grüße,

Annette Zürn

Mediaberaterin und Marketing

2 Blocked on streets

1 Spain

December, 2022 - Report from our member in **Spain**: *"The conditions for collecting signatures in Manresa are impossible for us to fulfill: proof is required that our non-profit association has current liability insurance with coverage of 601,00 euros."*

- a) Disposar de la pòlissa de RC vigent i al corrent del pagament, amb una cobertura mínima per sinistre de 601.000€ de capital assegurat i un sots límit mínim per víctima de 150.000€.
- b) Disposar, durant la realització de l'activitat, de l'esmentada pòlissa d'assegurança de responsabilitat civil i el rebut del seu pagament, així com aquesta autorització.

La cap de Secció

Montserrat Morros i Martínez

Bona tarda,

Us adjunto els estatuts on podeu veure a la pàgina 2 que és una associació sense ànims de lucre.

...

LIMITE POR SINIESTRO: 300,000 EUROS

LIMITE POR AÑO O PERIODO DE SEGURO: 300,000 EUROS

LIMITE POR ASEGURADO: 150,0000 EUROS

Gràcies

Electro y Quimico Sensibles por el Derecho a la Salud

2 Sweden (added after submission to EC)

January, 2023 - Report from our member in **Sweden**: *"The Sign STOP 5G organisations in Sweden have requested to hold a press conference at Europahuset in Stockholm. Despite several phone calls and 4 e-mails, the House of Europe in Stockholm has only*

responded after 3.5 months. Europahuset has not given any answer by phone, those I have spoken to have asked us to write by email to the Management Board."

The response from Europahuset is:

"We apologize very much for the late written response to your question. As a colleague informed you earlier by phone, we rent our premises in the Europahaus to associations and organisations organising events with a clear EU link. As this event does not have that, unfortunately we are unable to do so."

3 Corona Restrictions

On March 11, 2020, the World Health Organization announced that the COVID-19 outbreak had become a worldwide pandemic. The Member States have been affected in a dramatic and exceptional way by the consequences of that pandemic. They have taken a series of restrictive measures to stop or slow down the transmission of COVID-19. As a result, public life came to a standstill in almost all Member States.

In the first half of 2022, a substantial number of Member States still had measures in place restricting the free circulation of citizens within their territory in order to stop or slow down the transmission of COVID-19.

There were restrictions on holding events and meetings and collecting signatures on the street. This situation, the fear of contagion with Corona, unfortunately continued and many people wanted to keep their distance and quickly finish their errands instead of informing themselves at our stands in personal contact.

4 War in Europe

The Ukrainian war has been a serious set-back to many families. They have had grave worries about heating, energy, having the means to feed themselves, and when addressing people we have been met with fear and worry about their immediate survival and little extra energy to be mindful of other planetary problems.

The Ukrainian war has inflicted a societal consequence in the rest of the world that has changed the way we live. The war has put the EU community into a state of emergency. Therefore the attention of the public has been focused on other things than citizen participation. Thus the execution of democratic rights have been on halt.

5 Donations

Willingness to donate to needs that are politically acute has been low. We have even been blocked by fundraising platforms despite the fact that the ECI is an official tool instigated by the Lisbon Treaty. Some examples:

GoFund rejection

Dear GoFundMe Customer,

We are writing to inform you that your GoFundMe has been removed due to a violation of our Terms of Service.

The content of your fundraiser falls under our "Prohibited Conduct" section. You can view our Terms of Service by clicking this link.

Unfortunately, our Terms of Service, along with strictly enforced policies from the payments industry, **prohibit GoFundMe from allowing you to continue raising money for this campaign.** Any donations made to your fundraiser that have not already been withdrawn have been refunded and will be returned to your donors within 3-7 business days.

Regards,
Jade
GoFundMe Trust & Safety team

Hithit.cz rejection

Good day,
Thanks for the project.

All of us at Hithit assessed the project relevantly and agreed that it is not suitable to be launched in our country, because there is a lot of misinformation and hoaxes in this topic (the whole 5G), and we have decided not to support it further here.

Thank you for your understanding.
Karolína Baňková

StartLab rejection

Hello Petra Bertová,
Unfortunately, your campaign on StartLab has been rejected. Reason for rejection:

in the project, you describe the harmfulness of wi-fi radiation as a fact, which, in our opinion, is scientifically disproven.

In StartLab, we stand and like to support public benefit projects that are based on real foundations and do not cause people to worry about unfounded opinions. On the contrary, we consider your influence to be harmful to society.

Sincerely,
Zuzana, StartLab

Donio rejection

Hello Petra,

due to repeated requests to withdraw your campaign from Donio from the lay and professional community due to misleading information, we have decided to terminate your campaign prematurely in accordance with point 5.2 of the Rules.

Thank you for your understanding,
Sincerely,
Ivan Zát'ko
Country Manager Donio Slovensko

6 Campaigner Health Issues

Health issues due to more or less severe electro hypersensitivity conditions (EHS) for most activists who campaign, collect signatures, distribute flyers, etc. because they are exposed to high levels of mobile phone radiation everywhere in cities at markets, in the streets, at event venues.

Most activists campaigning are more or less seriously injured by today's excessive radiation that we are surrounded by everywhere, and are thus limited due to health problems. The radiation found in cities at markets, on the streets and at event venues therefore makes it difficult for many activists to collect signatures, hand out leaflets etc. because they are exposed to excessive levels of wireless technology.
